

Dear Parents/Guardians,

One of the priorities of Mayde Creek Junior High is to provide our students the safest and most effective learning environment possible. To better achieve this goal, we have implemented a valuable, proactive program called the Student Assistance Program or SAP.

The Student Assistance Program is made up of a select team of staff members who have received special training to help students deal with problems that interfere with learning. This includes helping students deal with:

- peer conflicts
- self-esteem
- feelings of non-acceptance
- stress
- family changes
- or other issues that hinder student's academic performance.

Your child has received a referral for this beneficial program. Students can be recommended to the program by any school staff member, parent, guardian, or by filling out a self-referral. Please read and consider the enclosed brochure to learn more about the Student Assistance Program. In order for your child to participate, you are required to sign the permission form below and return it to the counselor's office.

If you have questions, please contact the SAP Coordinator or your child's grade level counselor.

Sincerely,

Meredith Keener
Counselor
281-237-4918
