

Katy Independent School District
Health Services

Dear Parent or Guardian,

Your child is going home from school with symptoms of illness. KISD Administrative Regulation FFAD is in place to ensure the health and safety of all students and states that students who exhibit vomiting, diarrhea, or a fever ≥ 100.4 , must be excluded from school. **Re-admittance is allowable as follows:**

- Free of fever (< 100.4) for at least 24 hours without** the use of fever-reducing medications such as acetaminophen or ibuprofen. Common trade names of products containing these medications include, but are not limited to Tylenol, Motrin, and Advil. All aspirin-containing products should be avoided.

- Food and liquids have been tolerated for at least 24 hours without vomiting and/or** diarrhea, and without the use of medication to relieve symptoms.

- Students diagnosed with a contagious illness** that is being treated with prescription medication, must complete a minimum of **24 hours** of the prescribed dosage prior to returning to school.

A DOCTOR'S NOTE DOES NOT SUPERSEDE THE "24 HOUR RULE"

If the guidelines indicated above have been met, your child can return to school:

Date: _____ **Time:** _____

Please feel free to contact the school nurse if you have any questions regarding your child's health and his/her return to school.
